LEONARDO STILLI

Boston, MA | (617) 991-3019 | stillileonardo@gmail.com | linkedin.com/in/leostilli/ | github.com/LeoStilli

EDUCATION

NORTHEASTERN UNIVERSITY, Boston, MA **Sep. 2022 - Present**
Bachelor of Science in Business Administration *Expected May 2026*

- Minor in Computer Science with a Concentration in Financial Technology

Relevant Classes: Investments, Managerial Accounting, Fintech and Innovation, AI and Society, Database Design

WORK EXPERIENCE

Software Engineer | Remote | benvenutoclubsanremo **Dec. 2022 – Present**

- Led the migration from a static site to a NextJS and NodeJS stack, achieving faster load-times and API integration.
- Initially developed a responsive website with HTML/JS, increasing user conversions using SEO optimization.
- Collaborated with clients and end-users throughout the product development process to enhance UX.
- Developed a responsive event management system that allows users to sign up and view upcoming events.
- Created modular components to streamline design ideas and maintenance, achieving a user-friendly platform.

Bilingual liaison & Translator | Boston, MA | *US Quanta* **Jun. 2025 - Jul. 2025**

- Served as the primary bilingual (English/Italian) translator for high-profile American-Italian bio-tech conference.
- Managed communication and enhanced networking opportunities for 100+ attendees to secure engagement.
- Helped facilitate strategic communication and bridged market gaps to help Italian companies enter the US market.

IT Developer and Analyst | Cambridge, MA | *Harvard University* **Jul. 2024 - Dec. 2024**

- Collaborated with the application lead engineer, developing a chatbot (AgentAI) utilizing React and Flask.
- Built REST APIs and managed a PostgreSQL database, with a high-performance and responsive chatbot experience.
- Aligned cross-functional departments to define user problems, improving accessibility for 50+ staff members.
- Implemented testing protocols for all API endpoints, ensuring compliance and risk mitigation for the institution.

Resident Assistant | Boston, MA | *Northeastern University* **Jan. 2024 - Dec. 2024**

- Hosted collaborative 'Study Sprints' to combat academic isolation and improve time management for 21 residents.
- Guided students on campus resources through constant mentorship, improving academic performance and retention.
- Transformed conflicts between residents into opportunities for community building by mediating solutions.

PERSONAL PROJECTS

Cryptocurrency Portfolio Management | Boston, MA | *Python* **Jan. 2023 - May 2023**

- Engineered a python system to track real-time cryptocurrency prices with historical data and customizable alerts.
- Designed and implemented an alert system to notify users of significant price changes or portfolio milestones.
- Integrated with a public API (CoinMarketCap) to fetch and regularly update real-time market data.

Code-Driven Arduino Track Challenge | Washington, D.C. | *C++* **Jul. 2022 - Aug. 2022**

- Programmed an Arduino solution that autonomously guided a toy car through an entire track using C++.
- Accepted into Brown University Pre-College Program for engineering students, homing in on programming skills.
- Placed 2nd in an arduino track tournament with 100 participants by combining efficiency and precision in Arduino.

ADDITIONAL EXPERIENCE

Sales Associate | Boston, MA | *J.Crew* **May 2023 - May 2024**

- Assisted 60+ customers on a daily basis by providing attentive and personalized support.
- Communicated efficiently and fostered a positive work environment through strong interpersonal skills.
- Assisted inventory management, restocking and keeping track of items; maintaining a structured environment.

Robotics Club Founder | Milan, Italy | *The British School Of Milan* **Sept. 2021 - May 2022**

- Founded and led the robotics club, managing the team's projects pipeline from ideation to competition.
- Mentoring a team of 12 members in programming and engineering principles; designing robots for competitions.
- Fostered a innovative environment that led to successful participation in regional robotics competitions.
